

Welcome to the World of Arte Vela

Innovation in Creation

Since 1994 we have been creating beautiful works of art. Our highly skilled personnel use the finest materials to sculpture and carve unique candles. The finished Arte Vela product is often taken as being a very fine piece of porcelain.

We strive for excellence in all aspects and we will stop at nothing to ensure that what we make for you is the finest carved candle that money can buy.

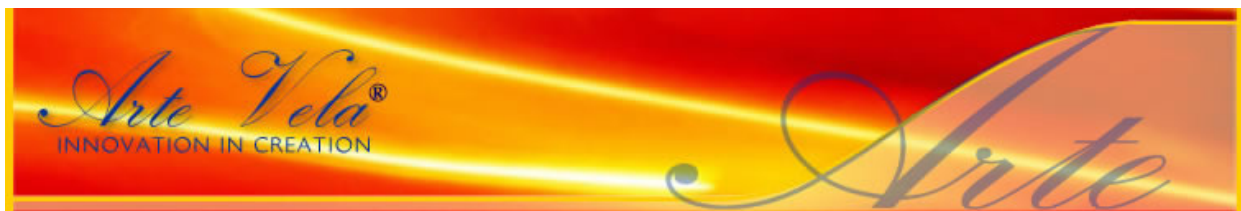

Brief History

The first Arte Vela store opened to the public in September of 1994. This store was a tiny seventeen square metre corner site situated in the walking street of the old town in Benidorm, Spain. The store was an outright success and from these humble beginnings the Arte Vela concept began. Arte Vela expanded its business activity by opening further company stores and by showing others how to do so.

Arte Vela is today the worlds leader within its field, no other company can offer so much experience and success in retail, wholesale and training. Arte Vela has generated and pioneered many new and exciting concepts. The materials used and methods employed result in the finest carved candles. The beautiful carving and the harmonious long lasting durable colours make our products both unique and ideal for home decoration.

The Arte Vela store today has changed considerably from its initial concept. By continually adding new and exiting products and services we are able to achieve a high level of customer satisfaction. This has ensured that Arte Vela maintains its market leadership and dominance. The past and present success of Arte Vela gives both strength and wisdom to achieve its future objectives.

A Great Business Opportunity

We offer an outstanding opportunity to build an enjoyable and profitable business.

Never has it been so easy and with so little financial outlay to acquire an exciting new business. You can open a store within a store (corner) for existing businesses or a full blown store similar to our company owned outlets. The choice is yours...

So how does it work?

Arte Vela has been successfully making and retailing carved candles since 1994.

All materials and products used in the manufacturing process are tried and tested. Most of these items are made exclusively for Arte Vela and are of the highest quality. We supply everything that is required for the manufacture of the very same carved candles that you see in our stores.
